

GROW YOUR INNOVATION TECHNOLOGY AND ENTREPRENEURIAL SKILLS WITH THE HELP OF A NATIONAL LABORATORY

Chain Reaction Innovations is a two-year program for entrepreneurs focusing on energy and science technologies.

Through an annual application call and competition, four to six teams are selected to join CRI. The program enables innovators to work on their technology full-time, reduce R&D time and de-risk technologies with the help of world-leading experts and equipment from a national laboratory.

BENEFITS

- Embedded in a national laboratory
- Up to \$220,000 to spend on R&D at Argonne
- Up to \$100,000 per year in salary and stipend
- Support obtaining additional project funds
- Assistance conducting R&D at Argonne
- Advisory network of business mentors
- Technical guidance and collaboration with Argonne's 1,600 engineers and scientists
- Connections to commercial partners and investors
- Access to Chicago innovation ecosystem

Join a Webinar Learn About CRI:
August 22 from 2 to 3 pm CST or Sept. 17 from 3 to 4 pm CST
